## Introduction

This resource aims to develop pupils' locational knowledge. By accessing and using Digimap for Schools, it is hoped that pupils will learn more about some of the places that are mentioned in the media.

<p><i>What's the theme?</i></p> <p>What makes a place 'topical'?</p>	<p><i>What are we exploring?</i></p> <ul style="list-style-type: none"><li>• Places are 'topical'.</li><li>• When a significant event occurs, it is often reported in the media. Usually, the place is identified, along with many physical and human features, in order to situate the event within the world. Maps at various scales are frequently included in news reports; this helps us relate where the event has occurred to places that we are already familiar with, thus extending our mental maps.</li></ul>
<p><i>What's the learning objective?</i></p> <p>To access and use digital maps in order to locate some of the places around the world that are mentioned in the media.</p>	<p><i>What will pupils know, understand and be able to do after completing this?</i></p> <p><i>All pupils will...</i></p> <ul style="list-style-type: none"><li>• be able to conduct an investigation and create a list of all the places and features that have been mentioned in the media recently.</li><li>• be able to use the search facility to locate all the places and features that have mentioned in the media recently on a world map.</li></ul> <p><i>Most pupils will, in addition...</i></p> <ul style="list-style-type: none"><li>• be able to record the frequency of places and features mentioned in the media.</li><li>• be able use the search facility and the tools available to produce an annotated map to show all the places and features that have mentioned in the media recently.</li><li>• be able to identify and describe any patterns that are shown on their map.</li></ul> <p><i>Some pupils will...</i></p> <ul style="list-style-type: none"><li>• be able to try and classify their results so that they are more manageable.</li><li>• be able to explain why some places appear to be mentioned in the media more than others.</li></ul>
<p><i>NC Programme of Study for Geography (England)</i></p>	<ul style="list-style-type: none"><li>• Pupils should extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features. They should develop</li></ul>

	their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.
<i>The World Around us (Northern Ireland)</i>	<ul style="list-style-type: none"><li>[The curriculum implies that pupils will build their knowledge of places, their location and characteristics, at different scales, locally, nationally and around the world, and that they will develop their skills and knowledge through using large scale maps, globes, world maps and atlases. This will occur through studies that meet the curriculum requirements.]</li></ul>
<i>Curriculum for Excellence (Scotland)</i>	Social Studies: <ul style="list-style-type: none"><li>2-14a: To extend my mental map and sense of place, I can interpret information from different types of maps and am beginning to locate key features within Scotland, United Kingdom, Europe or the wider world.</li></ul>
<i>Curriculum for Wales</i>	Humanities: <ul style="list-style-type: none"><li>I can present what I have discovered in a variety of ways and draw simple conclusions.</li><li>I can recognise the distinct physical features of places, environments and landscapes in my locality and in Wales, as well as in the wider world.</li></ul>

### *How might I assess learning?*

- Can pupils conduct an investigation into the places and features mentioned in the media recently?
- Are they able to list the names of countries, cities, regions, rivers, deserts, mountains, etc.?
- Are they able to record how many times each place or feature is mentioned?
- Are they able to classify their results so that they are more manageable?
- Can pupils use the search facility and the tools available to produce an annotated map to show all the places and features that have mentioned in the media recently? (They should note the name of the place or feature and why it has hit the headlines).
- Can pupils identify and describe any patterns that are shown on their map?
- Can pupils explain why some places appear to be mentioned in the media more than others?

### *What could we do next?*

- See our [Taking it further](#) section, below.

### *Which key words are relevant here?*

world; world map; globe; continent; ocean; sea; country; region; city; physical (natural) features; human (made by people) features; rivers; mountains; deserts; media; patterns; list; record; classify; analyse; describe; explain; annotation; annotated map.

## Teaching and learning activities

	Activity	What's involved?	What do I need?
<i>To start</i>	<i>What's in the news?</i> 	<ul style="list-style-type: none"><li>Pupils record places recently mentioned in the News and associated features.</li></ul>	<ul style="list-style-type: none"><li>Selection of current newspapers.</li><li>PCs/tablets so pupils can access online news sites.</li><li><a href="#">‘Topical places’ worksheet</a>.</li></ul>
<i>Main activity</i>	<i>Mapping the news</i> 	<ul style="list-style-type: none"><li>Pupils create an annotated map of places recently mentioned in the media.</li></ul>	<ul style="list-style-type: none"><li>Login details for Digimap for Schools.</li><li>Tablets or PCs for pupils, say 1 per pair.</li></ul>
<i>To finish</i>	<i>Why so topical?</i> 	<ul style="list-style-type: none"><li>Pupils discuss why places are topical.</li></ul>	<ul style="list-style-type: none"><li>Copies of the pupils’ news maps.</li></ul>

## Starter Activity: What's in the news?

1. Gather a number of recent national and international newspapers and/or provide access to digital news sources.
2. In small groups, get pupils to conduct an investigation into the places and features mentioned in the media recently. In order to make things more manageable, different groups could be allocated different countries or continents.
3. They should make a list of the names of countries, cities, regions, rivers, deserts, mountains, etc.
4. They should also record how many times each place or feature is mentioned.
5. Suggest that they try and classify their results, e.g. by type of place (country, region and city) or feature (physical/natural and human).
6. Later, invite each small group to share their findings with the rest of the class.

### *News websites*

- [BBC Newsround](#) provides news for children age 6 to 12.
- [First News Live](#) is a free weekday broadcast for young people made by Sky News and First News.
- [Dogo News](#) is a site for children with an international perspective.
- [The Week Junior](#) is a current affairs magazine and website for ages 8 to 14.

## Worksheet: Topical Places list

<i>Name</i>	<i>What is it?</i> A physical (natural) or human (made by people) feature? A region, country, city, town, village?	<i>Why is it in the news?</i>	<i>How many times is it mentioned?</i>

## Main activity: Mapping the news

Challenge pupils to use the search facility and the tools available to help them produce an annotated map to show all the places and features that have been mentioned in the media recently. They should note the name of the place or feature and why it has hit the headlines.

The steps below should show how they could achieve this. See our [sample map](#) below.

### Login to Digimap for Schools

1. Go to: <https://digimapforschools.edina.ac.uk>.
2. **Select Login** in the top right corner.
3. Enter username and password. The username and password are provided by Digimap for Schools when you subscribe. Everyone in your school can use the same login details.

A login form with two input fields. The first field is labeled 'Username' and the second is labeled 'Password'. Below the password field is an orange button with the text 'LOG IN' in white capital letters.

### Find the place

1. Pupils can **search with country, town or postcode** to find the place of origin.
  - a. If they know where the country/town is, they can get to the location without searching. They can zoom in/out and click (or touch) and drag the map to move around.
2. Let's look for Australia.
3. **Type Australia in the search box.**
4. Note the results are in two lists – United Kingdom and World.
5. **Select Australia from the World results list.**

### *Add a label*

1. **Open the Drawing tools.**
2. Select the standalone label text, highlighted on the image below.
3. **Click or tap on the map where you want to add the label.**
4. Type in your text, e.g. New Zealand.

#### Draw and create

#### Text settings

### *Add a paragraph of text*

5. **Open the Drawing tools.**
6. Select the text box button, highlighted on the image below.
7. **Click or tap on the map where you want to add the box.**
8. Type in your text.
9. You can resize the box if all the text is not visible – use the small arrows at the bottom right of the box to make it bigger.

#### Draw and create

#### Select Marker

#### Line settings

#### Fill settings

### Add a marker

There is a range of markers and emojis available.

#### 10. Open the Drawing tools.

11. Select any marker – they are orange when selected.

12. Select the spot on the map and a marker is placed.

#### Draw and create

#### Select Marker

#### Line settings

#### Fill settings

### Print maps

Afterwards, pupils should print a copy of their map and analyse it with the others in their small group. Do they notice any patterns?

1. **Select the print menu - you'll find it above the map.**
2. Options:
  - a. Input a title, e.g. 'Carol's news map';
  - b. Select PDF;
  - c. Select A4;
  - d. Select Landscape/portrait.
3. **Make sure Drawings is ticked.**
4. **IMPORTANT:** Check the Layout Preview. Select the words Layout Preview above the map.
  - a. Layout Preview will show you if your map print will cover the area you want. If the shaded box doesn't cover the area you want, close the print menu and try zooming in until the shaded box covers your area.
5. **Now select Generate Print file.**
6. A print file is downloaded which you can then open.

The screenshot shows the 'Print' window of the Digimap for Schools application. It is divided into two main sections: 'Options' and 'Additions'. The 'Options' section contains fields for 'Map Title' (set to 'Australia new stories'), 'Enter your name:' (set to 'Neil'), 'Print Format' (set to 'PDF'), 'Page Size' (set to 'A4'), and 'Print Layout' (with 'Portrait' and 'Landscape' radio buttons, 'Landscape' is selected). The 'Additions' section has a checked box for 'Drawings', an unchecked box for 'National Grid Lines', and an unchecked box for 'Add Legend'. To the right of these options is a 'Layout Preview' area showing a map of Australia with a blue rectangular selection box. Above the map, there are tabs for 'Content Preview' and 'Layout Preview', with 'Layout Preview' being the active tab. Below the map, there is a copyright notice: '© CollinsBartholomew Ltd (2019). FOR SCHOOLS USE ONLY.' At the bottom of the window, there is a 'Generate Print File' button and a note: 'To preserve scale print at 'actual size', do not 'fit to page'.'

*See our sample map:*

## Finish activity: Why so topical?

Ask pupils: “Some places appear to be mentioned in the media more than others. Why do you think this might be?”.

Places may also become ‘topical’ if they are the setting for a popular television drama series, cinematic film, outdoor theatre production, music festival or sporting event.

Places where past events have taken place are important too as this can enhance our understanding of happenings today.

## Taking it further

### *English*

Many television series and cinematic films are recorded in real places around the world and trailers are posted online, e.g. BBC; Channel 4; You Tube.

1. Identify a trailer that is suitable for the age group that you teach and vet the content before using it in class.
2. Firstly, show the class an extract from the trailer all the way through. Explain that, although many television series or cinematic films are works of imagination, the settings are often real places.
3. Show the extract a second time, pausing to discuss each change of scene and allowing pupils to make notes.
4. Use the timer to divide the extract into short sections, designating one to each small group of pupils.
5. Challenge each group to discover as much as they can about the setting/s in their allocated section.
6. Next, they should attempt to write and record a ‘voiceover’, which provides locational information (with maps and images) about the setting/s shown in their section of the trailer.
7. Invite each group to present their ‘voiceover’ to the rest of the class.

### *History*

Pupils could find out and write about historical events, sites, countries, areas and features. This helps them to develop a sense of where and how people lived and the events that occurred.

## Art

Discover more about artists and their home town, region, country and places they visited or where their art is on display. Pupils could create their own artworks, influenced by a particular style or place.

## Art/Music

Pose place-related questions, such as:

- 'Which city is shown in this painting?';
- 'Where is it?;
- 'What was it like?';
- 'When was this music composed?';
- 'Where did the composer live?;
- 'What was it like to live there then?'.

This enables pupils to find the 'where' in the wider curriculum.
