

Investigating time zones recording sheet

Name

1. Choose one time zone on an atlas map and record whether it is plus (east) or minus (west) of the Prime Meridian. Locate cities found within that time zone and record them and the country they are in.

Hours from Prime Meridian

Country	City

2. List all the countries that span more than one time zone

3. Which country spans the most time zones?.....
4. How many does it span?
5. In the first line of the table write the time in your country now, then use the world time zones map to work out the time in up to five other countries around the world.

Time	Place
When it is.....	in.....
It is.....	in.....
